Why SickKids needs you?

Our primary goal is to relieve sickness and preserve health among children and young people in the North West of England and South East Asia.

We do this by providing and assisting in the provision of facilities, support services and equipment not normally provided by local authorities.

We also promote research in all aspects of safeguarding vulnerable children and children's emergency medicine.

Since launching two years ago our small, visionary charity has enjoyed year on year success in achieving our goals.

Our next step will be to provide support for M'Lop Tapang in Cambodia and children's Emergency Departments in the NW of England in the form of a sensory room, which is so important in managing children with various forms of brain injury and behavioural problems.

Overcoming the financial hurdle to achieve these goals will be the key objective of the successful applicant.
